

Hardenbergh Group, Sentact, and Preverity Combine to Create Leader in Patient Safety, Experience, Risk, and Healthcare Compliance Solutions

Three trusted names now aligned to serve healthcare leaders as one.

The integrated Sentact platform provides:

Sentact's market-leading digital rounding and compliance platform, used by hospitals nationwide to standardize operational best practices to support patient safety, elevate patient experience, and ensure environment of care regulatory and accreditation compliance.

Hardenbergh Group's nationally recognized workforce solutions to support physician credentialing and payer enrollment, as well as its external peer review and consulting solutions—foundational elements in the pursuit of safety, quality, productivity, and organizational compliance.

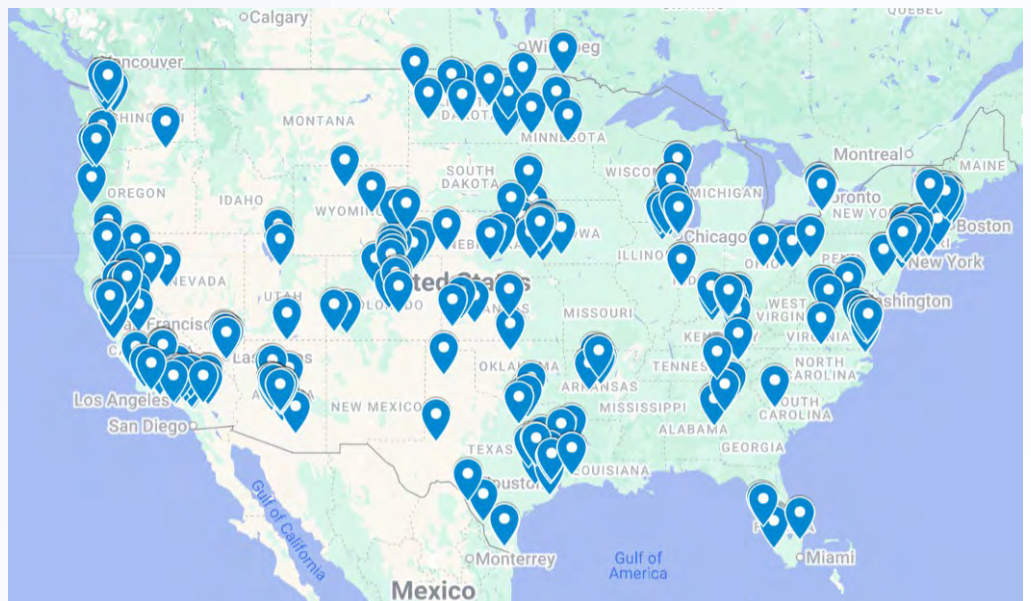

Preverity's proprietary risk intelligence and predictive analytics solution, which equips leaders with forward-looking insights into clinical risk and provider performance to improve safety and support physician peer review (OPPE/FPPE).

Creating the Leading Platform for Patient Safety & Experience

	SENTACT	Hardenbergh Group	PREVERITY
WHAT	Rounding, operational workflow automation, and organizational analytics/reporting	Credentialing, privileging and payor enrollment workforce solutions	External Peer Review
HOW	<u>One</u> integrated platform for all audits, rounds, tracers, inspections, and surveys. Delivers full closed loop communication and automatic routing of both issues and employee recognition.	Short-term, long-term and on-demand staffing solutions and credentialing services to help fill Medical Services Professionals (MSPs) vacancies, augment existing teams, and assist with workload spikes and backlogs.	Offering comprehensive reviews, medical necessity and audit reviews, reviews of specific elements, custom reviews, medical staff consulting and fair hearing support.
WHY	Support patient experience, patient and environment of care safety, and workforce engagement. Provides proactive means to improve CAHPS, HACs, Leapfrog grades, environment of care regulatory and accreditation findings.	Avoid risk and compliance issues and operational challenges that directly impact patient safety, clinical quality, and revenue cycle outcomes.	Manage standard of care compliance reporting and support the OPPE/FPPE credentialing and privileging process. Ensure regulatory standards for physician performance are met, provide fair hearing support to mitigate liability for adverse events.

Better Experiences. Exceptional Outcomes.

Unified Industry Leaders

Digital Rounding & HRO Workflows

Peer Review & Credentialing

Patient Safety Risk Mitigation Analytics

The Future

- Real-Time interventions via leading and lagging indicator analysis to mitigate risk
- True ROI through integrated technology, services, data intelligence, and consulting
- Unprecedented Insights by connecting risk, compliance, experience, and safety data

The Result

A comprehensive platform transforming patient safety and experience improvement across the continuum of care.

- Reduce Adverse Events
- Increase CAHPS
- Maintain Accreditation & Regulatory Readiness
- Reduce Staff Turnover & Burnout
- Reduce LOS and Operating Cost
