

All Rounds. One Powerful Platform.

Bring every round, survey, audit, and inspection into one connected platform

Rounding empowers healthcare system leaders to take control of quality and patient safety, caregiver engagement, emergency preparedness, safety and environments of care with a single, comprehensive insights tool. Whether it be leader rounding, every-patient every-day rounds, post discharge or goodbye rounds, regulatory audits, inspections or tracers, we offer thousands of prebuilt templates, plus the ability to customize surveys, so you'll have an all-in-one insight hub to identify improvement opportunities in real-time and take action.

What We Offer

Patient Safety	Clinical Excellence	Safety	Engagement
<ul style="list-style-type: none"> Chart Audit Clinical Tracer Audits Medication Management NPSG <ul style="list-style-type: none"> Patient Identification Blood Administration Critical Results Medication Reconciliation Fall Prevention & Morse Fall Scale Pressure Ulcer Prevention & Braden Scale Ligature Risk Audit Restraints Tracer Audits Pharmacy Audits & Surveys 	<ul style="list-style-type: none"> Hand Hygiene CAUTI Prevention Observation CLABSI Prevention Observation Surgical Site Infection Prevention Observation High Level Disinfection Hourly Rounding/ Purposeful Rounding (4 Ps) Bedside Change of Shift Hand-Off Observation Narrating Care Staff Competency Home Health and Hospice Infection Surveillance 	<ul style="list-style-type: none"> EOC Quarterly Scorecard <ul style="list-style-type: none"> Clinical Locations Plant Operations Find It & Fix It / EOC Tours Fire and Smoke Protection Features Fire Response Means of Egress Life Safety Inspections Mental Health EOC Audit Seclusion Room Audit Food & Nutrition Inspections EVS Inspections 	<ul style="list-style-type: none"> Every Patient Every Day Leader Rounding: Staff Leader Rounding: Patient Room Readiness Post Discharge Call Patient Survey Patient Satisfaction: Inpatient and Outpatient (multilingual support) Employee Satisfaction Home Health Surveys Hospice Surveys

How It Works

Rounding delivers one integrated, real-time system for safety, quality, nursing and patient experience rounding, but data collection is just the start. The Rounding application deploys integrated technology to ensure you are meeting every milestone in your quality of care goals with a closed-loop workflow automation process that enables notifications and escalations to ensure no issue is missed, and robust enterprise analytics to enable a deep understanding of safety, quality and satisfaction indicators.

Seamless Integration for Smarter Rounding

Connect systems. Streamline workflows. Improve outcomes.

Active Directory

Using single-sign on, users automatically login to Rounding using their organization's credentials. Maintain security without the need to remember multiple logins or passwords.

CMMS Interface

Using Sentact and the CMMS Interface, deficiencies are routed to your CMMS for corrective action and closed out automatically in both applications.

ADT Interface

A dynamic list of patients allows nurses to identify, select, and perform a round on a patient. Additional attributes help open a dialogue with the patient or plan accordingly.

HRIS Interface

Simplify employee satisfaction rounds with this interface. Select employees from the dropdown, ensuring consistency in data entry, and perform the desired round.

Work With Us

With 20+ years of experience and 800+ facilities contracted across the country, Sentact is helping healthcare leaders deliver high reliability for every aspect of care.

Sentact includes a full suite of applications—covering rounding, safety huddles, service request management, patient and staff feedback, compliance tracking, and more—so you can address every aspect of care and operations. Explore the complete Sentact solution suite to see how it can transform your organization.
